

Kentucky Top 100 - 380 P+ Players

Explanation of what's in this workbook

This workbook includes the Top 40 P+ Players lists for all the local sites in Kentucky. In this report, I am only including the Top 100-380 lists along with the site details page.

It includes a Top 100 P+ list and a Top 250 P+ list reflecting where all the players stand with all the other players listed in this workbook. These lists are a bit different than the past other metro files I've handled, as they are based on the top 40 per site, instead of the top 50 per site and they also show the players where they compare, to the position where other players stand at their respective home site.

It also includes an address sheet reflecting all the site's particulars, including the site power page URL (Excel format only), and is sorted by the highest number of points.

All data is provided with thanks, from information pulled off of BT/NTN's web site.

Here's a bit of information on the players included in this file. See where you stand.
